TURN

ALPHAWALLS.CO

آلفاوالز مرجع کاغذ دیواری

09057030181

Using wallpaper to beautify the home space is more economical than other materials used to beautify interior decoration. One of the most important features of wall papers is the ability to wash. Because living in cities has caused the amount of dust and soot in the space of houses to rise and the doors and walls of houses become dirty much sooner. On the other hand, the stability of the color of the wall papers makes you worry about them fading or becoming discolored due to washing.

Wallpaper has a higher quality than painting the walls. Decorators, architects, and interior designers have asked the question, 'When should we choose wallpaper over paint?' when it comes to choosing wallpaper, how to apply wallpaper, installing, and hiring an experienced crew. The answer is: 'When the lack of a focal point in the space is felt, or when we feel that a plain and soulless room needs to be revived.'
